Metamorphic magic with twist of new,
Green fields purple haze sky of blue –
Playing notes on cello strings,
In harmony with flowering things.

Practical Spirit intuitive mind,
Imaginative logic come un-signed –
Reading lines of swirling incense,
Deeply rooted wildly intense.

Center stage in a longtime dream,
A whole new level of what it means –
Silken scarves and soft warm gloves,
Ferns trees and gourmet love.

Now for what you'd like to see –
Just turn your adaptive communication key,
At this gateway on the planetary pathway,
For you the shiest deer would stay.
