Part the wonder gardens bring –  
For whom fir trees birds crickets sing,  
Antelope race mountains beseech,  
Ooe faun and fern fronds reach.

River moments twinkling sky,  
Winter melting intuitive sigh –  
Wild grasses emergent flowers,  
Meant to stay a thousand hours.

Assertive hard working independent,  
Spirit of spring romantic resplendent –  
Humming buzzing waking fields,  
Butterfly wings alone unsealed.

Saturn offers this wish /advice –  
Make your time more than rolling dice,  
Goals and values your destiny,  
Your friendships last eternity.
