Over rainbows people thought,
Place for dreams like those you brought –
Houseplants flowers holding hands,
Hour glass castles endless sands.

Pictures aligned books straight on shelves,
Delicate sparkling river selves –
Outrageous possibilities joyous tears,
Complex Universe living free of fears.

Compassionate minded favoring practical,
For you in fact its gotta be actual –
Jazz to classic ready to dance,
Out this wounded circumstance.

Enthusiasm encouragement ever true,
Perfection in pursuit of something new –
If you would roll open the seal,
Saturn says please stay for real.
