Sun the edge a Babylon sky,
Windhover moment quickened eye –
Cerebral qualities sensitive side,
Veils cover tears cried.

Signs mirrors networked elements,
Winged fire creative intelligence,
Forges language gives chaos name –
Vows honesty wishing stars more tame.

Choices forces mega directions,
Reason kindness resurrection –
Giving breath to living embers,
Confident storyteller you remember.

Whole new narrative radial shelf,
Information laden self-reflective self –
If you can believe in butterfly wings,
People the power miraculous things.
