Out a thunderstorm knock on the door,
Moment worlds been waiting for –
Compassionate face sparkling eye,
Story enough to make you cry.

Trees frogs planet's crises,
Merciful moon emphasis Pisces,
Sun celebrating arrival of spring –
Believing possibly in everything.

Forward moving doesn't look back,
Magnetic levitation screaming tracks,
Saintliness invites you in –
Sacred waterfalls begin.

Wildly swirling energy,
Particle dancing synergy –
If you're intent on serving others,
Sea change emerge from under covers.
