Early morning seaside sand,
Asks before he takes your hand,
Ankle deep waves sun rising –
Creative confident world surprising.

Defining existence as stories of lovers –
Sacrifices made by fathers mothers,
The break of day the living earth,
The very act of giving birth.

Wide awake burning desire,
One part water five parts fire –
Powerful personal individuation,
Skills to lead a transformation.

Where going that's the question,
Trajectory purpose underlying lesson –
Why up there in front of the line,
Who in the world to be this time.
