You know your way round these parts,  
Soft rains tender hearts –  
Mental geographies sign systems,  
Garden love motherly wisdom.

Business sense insured by Mars,  
Checks our hands opens jars –  
Warmly expressive radically analytical,  
Clearly assertive patient practical.

Timeless worried sun rise bright,  
Careful firm serious polite –  
Magically engaged in a complex creation,  
Baby breath fern fronds white carnations.

Were the ego easy to abandon,  
Be no wars no power crazed madmen –  
It's for saviors our deep cultures yearn,  
Would you help us with a pattern?
