

O***

Yesterday it rained all afternoon,
Today's garden white petal strewn,
The sun exuberant in morning sky –
Don't tell her what to do don't even try.

Green leaves crystal droplets,
Rainbow fragments sparkling locket –
Cares the way she makes you feel,
Pas de deux of a different real.

Worried perfection pinnacle bright,
Sacrifices to make things right –
Heaven forged her golden links,
Most concerned with what you think.

Loves to plan yet lives spontaneous,
Someone children know they can trust,
No less earth now in desperate need –
Define the alternative take the lead.
