

S****

Sphinx poised midst desert sands,
Sacred Yin-yang ancient lands,
Body and soul stellar shore –
Gender transcendent cosmic door.

Patient warm caring cooperative,
Bright ideas firm definitive –
Generous heart clear mind,
Fiery words nurturing kind.

Creativity runs in your blood,
Bowls cups from clay and mud –
Camels children baby elephants,
All take courage in your confidence,

Saturn says you've something to say,
Traveling adapting day after day –
Telling your story of changes due,
As a world of friends would want you to.
