

I * * * * *

Beloved by the seas you sail,
Polymorphic waves diatonic scales –
Animal friend irreplaceable,
Planetary relationship unmistakable.

Reaches back before time mattered,
Stars opened galaxies scattered –
Beyond thought reward/nemesis,
Words stories narratives genesis.

Giraffes birds the lion named,
Traveled from Persia to Aquitaine,
Escaped labyrinths drew celtic knots –
Dreams whisper the goal sought.

Presence the moment least expected,
Too complex to be predicted –
Carefulness and patience keep you grooving,
Birthing a world mountains moving.
