

B****

Long awaited healer woman,
One our tears must have summoned –
Waterfall spirit river mind,
Sacred mountain vision time.

Night wind tomorrow shaper,
Fire keeper memory maker,
Forgiving eyes dream smile –
For those who thirst rain a while.

Fathoms the depth goes the length,
Compassion belonging pure strength –
Winter melting destiny,
Raindrop moment eternity.

A thousand locks a single key:
Down to earth practicality –
Handfuls of wishes just one chance,
Would you one more garden dance.
