

D****

Sweet as spring thaw wind you are,
Looked for by everyone near and far,
To take us where we want to go –
A nod, a smile and goodness flow.

h elping others giving loving gifts,
Changing everything forgiving rifts –
Be it calm or stormy weather,
Forever making it all better.

A ngel's heart, water's mind,
Compassionate and wonderfully kind,
A real Dreamer with something to say –
Just so happens you know the way.

N ow the key to your inner heart,
Which you might think the unbelievable part –
Life's a drama, unfolding unpredictable,
You need to trust the inexplicable.
