Before words thought SPIRITS were,
Winds conspired WATERS stirred,
Metaquarks spun into STRINGS –
Who knew what their love might bring.

Living sea heavenly convergence,
Changing quantum self-emergence –
Menorah candlelight artful pirouettes,
Rung from bells sung from minarets.

Pathfinder forest shadow,
Tears kindness unnamed SORROW –
Unearthing STORIES never covered,
Beginning the world of serving others.

Great the responsibility asked of you,
Won't be easy to make it through –
Human network backbone update,
Place relative hour late.
