

T****

Times such the river'd frozen,
Power lines down branches broken,
Windows frosted can't see out –
If not for you life in doubt.

What wonder waiting brought you here,
What sparrow call or baby deer,
Memory fails have you a name –
Mythic hero all the same.

Sacrificing advantage comfort privilege,
To rescue lambs from perilous ledge –
Innate messianic heuristics,
Dancing ribbon love logistics.

Redwood sanctuaries temples jade,
Snowflakes sandpiles stories cascade –
Tomorrow hinging on its narrative,
Saturn says it's yours to give.
