Snowing hard from late last night,
Rivers frozen world draped white –
Blanket wraps alley stone,
Huddling corners cold alone.

Sky high restaurants privileged view,
Linen tablecloths seen that too –
Aluminum glass ivory towers,
Birds of paradise disguised flowers.

Cosmic threads scientific facts,
Lessons fine as spider tracks,
Quarks return to below from above –
Harmonizing life an act of love.

Eternal drama garden twist,
Omega emerging epic mist –
If you would just add to the scroll,
Where some say written the human role.
