

Katy

Forest winds snowcapped peaks,
California dream in purple batik,
Stardust moonlight titanium prisms –
Her heavens made of utopian visions.

Inventive thoughtful integral world,
Changing poetry the Universe swirled –
Teaching the basics serves the living,
Proverbial gift forever giving.

Positively forward minded,
Water carrier you well timed it –
Producing forgiveness whatever cost,
Venus keeping you from getting lost.

Trust you're at the right address,
Door opens with friendliness –
Arts your path this eternity,
Your goal proves your destiny.
