Fragile moon cold desert snow,
Quiet solitude coyotes know,
As much love as forever takes –
Seas roll earth quakes.

Altered time deep space stuff,
Luck tender street sense tough –
Lay his blanket down for you,
Caring support whole night through.

Father friend teacher brother,
Galaxy planet many grand mothers –
Imperatives beyond Kant's golden rule,
Doctoral degree values school.

As it happens the angel explained,
Ordinary eyes are not well trained –
You have to believe it could be possible,
Conceive anew the chasm crossable.
