Focused eyes seeking hands,  
Feathers soft a sparrow lands,  
The branch gives threatens to break –  
Little miracles all it takes.

Wonders a moment: are you its brother?  
(Deconstructing being other) –  
Hard headed respectfully scientific,  
Joyous laughter plain terrific.

From first meeting a real friend,  
Loving forgiveness rainbows bend –  
Eyes minds hearts enmarveled,  
Assumptions fears doubts unraveled.

Crawl on his knees or dervish whirl,  
Do anything to change the world –  
If only he remembers to smell bouquets,  
Og the music take Louvre days.
