WINTER night summer moon,  
Sacred mountains living dunes –  
So cold out fingers hurt,  
Sparrows silent hawk alert.

Diligent trustworthy proven friend,  
Starlit waters rivers bend –  
Conceiving a new achievable,  
Global scale responsible.

hearing Coltrane studying Gandhi,  
Vision the Universe mutatis mutandi –  
From Referential to metalevel,  
Where ego did invent the devil.

Dream fixing to come true,  
Where else would we find you –  
Animals childrens future pending,  
Freedom's delivery love unending.
