Looking as if more than ready,
Heart on fire emotions steady,
Real diplomatic warm and polite –
Clearly assertive a sweet delight.

Always going to do it your own way,
Tell it like you see it whatever they say,
Not one to be strung along,
Turn down gold / can you be that strong?

In your eyes the burning sun,
Just look what you've said and done –
Applied honesty cut through jive,
One who knows the worlds alive.

Got a handle on what's going down,
Ego ideas got a hold of the town –
Middle of summer just after midnight,
Your job to bring the morning light.
