Flickering light forest shadows cast,
Long the ancient velvet path –
Name sung by fir and pine,
Messenger in garden time.

Stir of earth and imagination,
Pragmatic intelligence in concentration –
Biological dialogical reconnection,
Never again this intersection.

Storyteller eye with tear,
Voice words sign system mirror –
Love letters already written,
Sun and moon hearts smitten.

Blue star sapphire white gold ring,
Touching adapting talking everything –
“It’s honesty,” Saturn states openly,
“Many occasions to turn your key.”
