Among the stories you incarnate,
Shades of wonder communicate –
Imagine the eons the paths life took,
To rethink the world give second look.

Sign maker speaking unspeakable,
Mind open for unreachable –
Spectrum messenger sensitive raindrop,
Moment you wish would never stop.

From back where spring and summer meet,
Addicted to books a penchant for sweets –
Concerto for flute and harp in C,
Reading Mozart on infinity.

Adaptive logic courting possibility,
Home-maker business gardening ability –
Would you help us to the other side?
Time wished for never tried.
