Dandelion wishes forget-me-nots,
Azure sky tiger lily thoughts,
Ivory moon circus runaway,
Gentle clouds a warm summer day.

Seaside soul,
Tahitian pearl –
Whatever she is she's growing,
Mindful of a river flowing.

homespun and sprinkled with stardust,
Someone to be with someone to trust –
Butterfly making use of her wing,
Soft and furious waving.

And for your wishes to come true,
Something new's what you need to do –
See possibility and start again,
Take the initiative simply begin.
