

A * * * *

Compassionate heart heavens eye,
Ear for the homeless child's cry,
You empathize when others pain –
Gone by many RIVER names.

Angels've seen you put others first,
Quench theirs before your own thirst –
Earthen flower garden lover,
Super hero undercover.

Can't be easy in times like these,
World is sick a bad disease –
Most would shrink from your assignment,
Human species re-alignment.

Dock silhouette an inland lake,
Thinking pathways feelings take –
Be yourself come what may,
Such your beauty this rainy day.
