Cut glass crystal melting snow,  
Life birth spring only know,  
Dancing the edge another beginning –  
Lilies trillium morning unending.

Mars bequeathed you confidence,  
Venus charm untamed elegance,  
The moon a place to veil your tears –  
Hold your hand for a million years.

Enthusiastic spirit compassionate eyes,  
Broken world wide open skies,  
Mountain forest lavender corners –  
Icy roads didn't they warn her.

If Saturn a narrative time a passage,  
The sphinx a sign encrypted message –  
Include the clarity of fractal sunlight,  
The thoughtfulness of womansight.
