

Y **

Roots from when the world began,
Quark energy yin and yang,
Possibilities too many to mention –
A whole new wave another dimension.

A dream only spring could leave,
One thunder rains and lightning weave –
Prelude to a symphony,
Human worth from cacophony.

Wide awake focused eyes,
Twilight garden river surprise,
Dance partner forgiving kind –
Sensual soul compassionate mind.

Ends and means that's the issue,
Whatever miracle you wish to do –
Entering the lands of huddle,
Creatures in jeopardy planet in trouble.
