

C***

Evening grazing mountain deer,
Spirea blooming somewhere near –
Alluring melody words uncaught,
Forest memory winter sought.

Telling glances someone in mind,
Blackberry parfait apricot line –
Stained glass windows choir singing,
Birds ribbons vows bells ringing.

Knitted scarf Parisian hat,
Dependable gardener cheshire cat –
Heaven and Earth's fascinating link,
Feather edged notepaper purple ink.

Saturn wants to add a comment,
For this unprecedented human moment –
Universal happiness can be real,
If down to business about how you feel.
