Careful intelligent stars all say,
Goddess in your yesterday –
Moments in mirrors hours books,
Between the lines second looks.

Probably read maybe overheard,
Trouble in paradise ask the birds –
Breaks my heart pass you a world,
Frightened fanged rattling curled.

You deeply rooted earth born vision,
Twice searched the human condition –
Sensitive storyteller weaver of threads,
Thinking how it could be instead.

Stubborn about your reality,
Garden loving possibility –
Curtains rising Act III Scene I,
Closing drama now begun.
