EARTH SPIRIT you see with flowers eyes,  
Care filled love practical wise –  
You make wishes and dreams propose,  
In summer sand with the logic of a rose.

STARS GRACE YOUR SHORT WARM NIGHTS,  
Stained glass windows, northern lights,  
Velvet touches garden pleasures –  
Reggae beats housefinch measures.

YOU listen to the morning doves,  
All the colors all your loves –  
Now entrusted with what to make real,  
In a miracle with nature's seal.

SWEET your songs, you understand,  
What's missing, what the times demand –  
From a cocoon, if you dare,  
We're breaking out of everywhere.
