Tender of a garden mind,  
Honey bee and columbine,  
Weaving threads no one sees –  
Watering plants pruning trees.

Logic roots ginseng lightning,  
Shrew lamb tiger lily frightening,  
Cellos wide eyed ocean foal –  
Summer lover robins soul.

Practical heart family bend,  
Cowboy with miles of fences to mend –  
Always watching where things are going,  
The unpredictable future knowing.

Saturn says you must be clear,  
The horses fox and baby deer,  
Forests searching rivers too –  
For a leader much like you.
