You might think a fairytale,
Happily ever after never fail,
Rainbows end fountain of youth –
More complex if you want the truth.

Eye to eye face to face,
Every tear an indelible trace,
Mythic smiles epic falls –
A genuine friend squirrels recall.

To the point straight uphill,
Inspired direct fiery will,
Distant vistas transformative goals –
Hopes promises fulfilled made whole.

Black star sapphire mountain rose –
What vision aspire what direction propose,
Where you going this time round,
Anything matter / what have you found?
