

J***

Rain forest autumn creature,
Golden life double feature,
Secretive dramatic enveloping –
Sign they say a sting.

Where'd she go to acting school,
Sacred passion warm cool –
Dramatist writer choreographer,
Fairytale you can't be sure.

Waiting there on down the beach,
Waves sky lavender peach,
The Moon floating ore' the ocean –
Only takes to sip her potion.

Starlight waking from a dream,
Saturn whispered this midstream –
"User name is little bird,
Adaptations the password."
