Woods aglow with autumn surprise,
Layered scene no curtain to rise,
Years disappear months turn to minutes –
The magic being your part in it.

Monologues dialogues conversations,
Dramatic unbelievable interpretations –
Definitively enchanting secret charms,
Disobedient type sets off alarms.

Burning for freedom plays with fire,
On her way back from the choir –
Heartfelt mysteries subconscious links,
Cites goals feels uses logic thinks.

Your life like that coastal highway,
Honest cliffs waves from far away –
Winding chronicle where you've been,
And what you're yet to do / amen.
