Time from childhood rainy days,
Windowsill wishes paper bouquets –
Roses bookmark her memories,
From relationships to fantasies.

Poised refined honest with self,
Creative imagination touch of elf –
Candlelight or center stage,
Edge of space another age.

Vowed to truth wove of song,
Skilled at judging right from wrong –
Knows that Reason takes any side,
Love waits on Will to turn the tide.

The world calling in distress,
Economy climate politic mess –
Seeing it from Saturn's angle,
Hers a part unknotting the tangle.
