

B****

A caring Soul, a wonder man –
Assertive leader who takes a stand,
Creating order out of chaos,
Just before the mess waylay us.

Camomile mixed with peppermint,
Quantum cosmic entanglement,
Guardian Angel for Mother Earth –
Just a taste of his true worth.

Blessed with patience and understanding,
Yet loves perfection that demanding –
A sphinx-like, encouraging, sunny heart,
In history with a real big part.

Wait a second, who you talkin' about –
Has he really conquered fear and doubt?
You think he believes he can do all that?
Just watch. The guys a cat.
