

knowing

a smooth infinity says nothing
it's the folds / fragments / the subtleties
turn information / lend to patterns
enable language spin data into meaningful
discourse / pathways / narrative fields

we were children once
growing learning entangled
we choose our friends / the voices we take serious
stories believe true justified reliable
values act upon
cultures produce / societies package / networks deliver
we don't think / know alone

the crux of the matter
you broke the rules
when you re-thought the reality
dragged the underlying into question
 deconstructed the game metaphor
 winners • losers / self • other / subject • object
the politics of class / race / gender / species
kingdoms / colonization / a 1%
violence normalized

yet the dream / coincidence / synchronicity
being part of something larger
the talk about God / heaven / prayer
helping others / risking life to save another
how art / music / dance enchant us
and love does not die
tell us something
