

more than

children squealing with delight
picnics, sunny skies, dogs playing,
butterflies flirting,
clover fields buzzing,
music, dancing and party conversation.

it's going to take some Soul Searching Honesty,
micro-theatrical spontaneity,
happenstance met with intelligence and courage
escaping limitations yesterday set;
catalyzed by moments of epiphany.

plus some serious housecleaning,
window washing, weeding...
clear explanations made public.
It means taking responsibility,
alongside the pleasures of cooking with integrity,
simmered with large measures of do-gooder Mindfulness.
Art as we Humans can do.
