Between the sparks a campfire light,
Falling stars a silent night,
Forest clearing mountain pass –
Where opals grow trillium last.

Reliable dependable everyone knows –
From Garden on his story goes,
Snowflakes give way to winter wheat,
Books agree stars all say sweet.

Refined tastes hard work sharp thorns,
Late night concerts music morns –
Practical Soul intuitive knowing,
Where Fractal Earthling you be going?

Friendships open the registry,
Go deep you'll find eternity –
Query every happenstance,
Goals directions the random chance.
