

ERIC

Beyond elementary gluon force,
Speaking root character terms of course –
Waking fields green growing places,
Matter-of-fact mind host of faces.

Kissed by mushrooms drawn by earth,
Deciding what the gardens worth,
What we owe interest accrued –
Rainy day morning coffee mood.

One to get down to nuts and bolts,
Stubborn measured in teravolts –
Warm and sensual don't forget that,
Family ties multiple hats.

If mystery exists and autumns no lie,
More here than meets the eye –
Sand castle or summer juke joint,
Magic happens at the bifurcation point.
