

# Hillary

Waking early to a daybreak rain,  
Before night her dream can claim –  
Windows stream life dripping,  
Out a fractal shadow slipping.

hARD memories chilling fears,  
SPIRIT of spring forgiving tear –  
CHRYSA LIS open RIVERS mend,  
WORLD STIRS begins again.

Silently moving holding on,  
GLACIER melting capricious dawn –  
Still believes meek inherit the earth,  
UNIVERSE throes of giving birth.

So where off to SATURN asks,  
Her jobs helping with your path –  
Says your fortunes buried deep,  
Life a chance a lovers leap.
