**P**ART the wonder gardens bring –  
For whom trees birds crickets sing,  
Antelope race mountains beseech,  
Doe fawn and fern fronds reach.

**R**IVER moments twinkling sky,  
Winter melting intuitive sigh –  
Wild grasses emergent flowers,  
Meant to stay a thousand hours.

**H**ARD working independent,  
Spirit of spring romantic resplendent –  
Humming buzzing waking fields,  
Butterfly wings alone unsealed.

**S**ATURN offers this wish/advice –  
Make your time more than rolling dice,  
Goals and values your destiny,  
Friendships to last eternity.
