

Jeanne

Once upon a promised shore,
In eyes the worlds been looking for –
Soft edge an ocean dream,
Sky of forgiveness / light turns green.

Enigmatic / spontaneous / radical,
Kisses purely alchemical –
Kind / compassionate / altruistic,
Intelligent evolutionary pluralistic.

Another chance / gift of morning,
Pristine sands gulls adorning –
Wisp of memory five star rated,
Picture heavens help created.

Waves break cast their spell,
Sandcastles melt / sandpipers tell –
If you clearly define your choice,
Love the sea become her voice.
