**B**lame the flowers the moon mars,  
A pool of night shooting stars,  
All the pathways brought you here –  
Mythic desires displacing fear.

**M**omentary garden passing shadow,  
Sweeping warm across a meadow –  
Enchanting vernal garden song,  
In eyes where you belong.

**E**arly springtime late afternoon,  
Plant filled windows book lined room,  
Conversation mysterious touch –  
Microbiological roots and such.

**K**ey a commitment very high priced,  
Harder than any diamond heist –  
Fathom the sea? climb Mount Everest?  
Take responsibility: the greater test.
