

Rodney

Earthling with volcanic soul,
Fixes builds makes things whole,
Timing harmony lightning cool –
Graduate Logistic Practicalities School.

Sees together how the pieces fit,
Keeps a pathway to Heaven lit,
In a Garden after rain –
Double rainbow come again.

Titanium nerves moonlight tear,
Dunes sea grass spring morning pier –
Trellis of roses growing out back,
Train moving down a sunrise track.

Signs of you all over the place,
Want to see God face to face –
Well wish upon a shooting star,
Bet on that confidence you got from Mars.
