**I**Idaho highway Teton range,  
Lion country mountainous strange,  
Rounding curves straight into the sun –  
Road you know a difficult one.

**P**pulsing heart spirit pounding,  
Dare devilish solar founding –  
Thinking for yourself a specialty,  
Defining success creating reality.

**N**ever doing what the master wanted,  
James Dean except undaunted –  
Responsibly impatient intelligence,  
Youthfully expansive resilience.

**O**ne thing leading to another,  
Still a lot of ground to cover –  
For when you open Saturn's gift,  
Whole place takes on a magic drift.
