

FARUQ

In the habit of doing his will,
Describe a human fits the bill –
Changing ideas about reality,
Ever clarifying emergent identity.

Golden hearted moods included,
Unpredictable nothing precluded –
Chooses how to give second look,
From circumstances to paths he took.

Solar wind fiery virtuosity,
August moon max luminosity –
Bends back bars of objectivations,
Unlocks chains of signification.

Sun in a cloudless midday sky,
Shines on the world not asking why –
Please help we're in an enormous mess,
For lack of cooperation care gentleness.
