Individuating do it your way,
Strong assertive fly will dare,
Tempered though with loving care.

Venus visits in your dreams,
You decide what each one means –
Mountains rise up steep and tall,
Sun blazes children call.

You see things in black and white,
Well to distinguish wrong from right –
Reliable lover definitive desires,
Natural for the heavenly choir.

Change is what times looking for,
Her melodies to sweep and soar,
Kindnesses transcending bounds –
Gifts will help you make the sound.
