**C**louds drift the ocean breaks,  
Mother the child's soft hand takes,  
Along the edge where castles melt –  
Picture would you how she felt.

**S**ummer spirit transparent moon,  
Shells pebbles living dunes,  
Creation in a splash of sunlight –  
Still a sense things could work out right.

**I**nexplicably confident assertive bold,  
Not going to do just anything told –  
Watery undercurrents solar will,  
Venus taught her world of skill.

**F**or what matters a simple price,  
Lesser values sacrifice –  
Saturn suggests your life endeavor,  
Unlock the sacred open forever.
