**S**till waters twinkling sky,  
Turning over who and why –  
Shimmering cross an inky lake,  
Inviting pathway one can take.

**G**arden desires mythic sphere,  
Caretaker the creatures rooted here –  
Quiet lapping shoreline rhythms,  
Galactic dancing algorithms.

**M**ore than simple passing guest,  
Woven into living nest –  
Sphinxlike intelligence creative spirit,  
In emergency or very near it.

**B**etween debtors and debt holders,  
Many a tear cried on his shoulder –  
What doing here Saturn asks,  
Envision the goal the defining task.
