Being there as on a summer walk,
Tree-lined street, after dinner talk –
Much to say, an assertive Spirit,
Plot twist vision or something near it.

Since a kid, a Mind of your own,
On every stage a superstar shown –
Evidence based Reason, definitive, clear,
Throwing light on what's happening here.

Peace loving, feelings that show,
Strings of memory that move real slow –
Raising the question, definition of fair,
Proposing solutions some wouldn't dare.

If anyone could say for all, "We're sorry,"
Wade the noise to the underlying story –
Deliver us from failing, take us by the hand,
The Stars suggest that your work can.
